

Financing opportunities: Programs for urban areas and sub-national entities

Institute	Programs	Regional scope	Type of support
Adaptation Fund	The project or programme would need to be in accordance with priorities laid out in national strategies and plans or in Nationally Determined Contributions	Local and regional governments can access the Fund only through accredited entities National, Regional or Multilateral Implementing Entities .	Readiness Grants, Innovation Grants
	NIE Small Grants for Innovation The Adaptation Fund Board (AFB) invites eligible Kyoto Protocol Parties to submit proposals for small-grant projects, using the services of accredited national implementing entities (NIEs). Proposals submitted will be considered under the Adaptation Fund (AF) Programme on Innovation.	Local governments whose countries have National Implementing Entities	Grants of up to US \$250,000
	Adaptation Fund Innovation Accelerator (AFICIA) It aims to foster innovation in climate change adaptation in developing countries. UNDP and UNEP manage two	<ul style="list-style-type: none"> UNDP: Organizations registered in a developing country. UNEP-CTCN: Non-Annex I Parties in Africa, Asia-Pacific and Latin America and Caribbean under the UNFCCC that do not have National Implementing Entities (NIEs) accredited with the Adaptation 	<ul style="list-style-type: none"> UNDP: Grants of up to US \$250,000 UNEP-CTCN: Technical assistance

		Fund (114 countries in total as of 26 June 2020).	
African Development Bank (AfDB)	Africa50 Mostly aimed at the energy, transport; ICT and water sectors, Africa50 primary objective is to increase the number of investment-ready, "bankable" infrastructure projects.	Africa	Technical assistance, obtaining permits and approval for land acquisition, and negotiating contracts
	African Water Facility (AFW) AWF focuses on the three core areas to implement innovative water projects and raise investment for water projects: Project Preparation, Water Governance, and Water Knowledge. The overall aim is to leverage all three of these areas to provide the framework and conditions necessary for sustainable projects to succeed and for the African water sector to thrive.	Africa	Grants between €50,000-€5,000,000 and technical assistance
African Development Bank (AfDB)	Urban and Municipal Development Fund for Africa (UMDF) The overall objective of the Fund is specifically to support African cities and municipalities to better manage urban growth and climate-resilient development by improving governance and quality of basic services.	Africa	Small grants, project preparation consultancy, events sponsoring
Agence Française de Développement (AFD)	AFD provides innovative and appropriate finance tools to help developing countries.	Heavily Indebted Poor Countries (HIPC)	Loans for local authorities, public institutions and private sector Grants to the social sector, rural and urban development initiatives, and infrastructure projects. Project preparation

			funds To finance feasibility studies and technical assistance in order to prepare future investment projects.
Agence Française de Développement (AFD)	Fund for Technical Expertise and Experience Transfers (FEXTE)	Developing countries	Funds for technical-cooperation programs and project-preparation studies
Agence Française de Développement (AFD)	ADAPT'ACTION It focuses in strengthening climate governance in Africa, helping countries to incorporate adaptation in their public policies and projects.	15 countries and regional organizations in Africa	Technical assistance and capacity-building support
Agence Française de Développement (AFD)	ARE Scale-up facility African Renewable Energy Scale-Up facility was created to boost private sector investment in on-grid and off-grid renewable energy production in Africa	Africa	Technical assistance to strengthen regulatory frameworks Guarantee facility for investments in off-grid, mini-grid and decentralized power industry players
Agence Française de Développement (AFD)	French Facility for Global Environment (FFEM) Through its financial tools, the Small-scale initiatives program and Private Sector Innovation Facility , FFEM encourages actors in the field to implement their initiatives combining environmental conservation and local development, in particular in Africa.	Global South, particular in Africa	Grants to local initiatives Grants or repayable advance for the private sector
Agence Française de Développement (AFD) European Investment Bank KfW	The Clean Oceans Initiative It supports projects that demonstrate efficient and effective ways of reducing plastic waste or the discharge of microplastics.	Asia, Africa and Latin America	Up to €2 billion loans by 2023
Asian Development Bank (ADB)	ASEAN Australia Smart Cities Trust Fund The fund supports activities that will enable cities to facilitate adaptation and adoption of digital solutions, systems and governance systems in the participating cities.	Developing member countries in Southeast Asia.	Support in project preparation and implementation, financing and associated capacity

			development
Asian Development Bank (ADB)	Urban Climate Change Resilience Trust Fund (UCCRTF) help build resilience to the effects of climate variability and climate change through the use of a systems-centered approach that supports making climate change a central element of city planning.	Medium-sized cities in Asia	Grants for technical assistance Investments
Asian Development Bank (ADB)	Urban Environmental Infrastructure Fund (UEIF) The fund prioritizes climate change and urban related sectors	All ADB developing member countries	Grants for technical assistance and investments
Asian Development Bank (ADB)	Cities Development Initiative for Asia It supports the preparation of sustainable and bankable infrastructure projects, linking them with funding sources, and strengthening their capacities to develop and implement high priority investments	Secondary cities from all ADB developing member countries	Project preparation studies
Asian Infrastructure Investment Bank (AIIB)	Invests in infrastructure and other productive sectors such as energy, transport, information and communications technology, water and urban development.	AIIB members	Loans Equity investments and Guarantees
Asian Infrastructure Investment Bank (AIIB)	Project Preparation Special Fund (PPSF) It helps AIIB members to prepare bankable infrastructure projects that the bank may finance	AIIB members—especially low-income members	Grants for technical assistance
Carbon Disclosure Project (CDP)	CDP Matchmaker It provides information on climate resilient infrastructure projects worldwide and links them to investors.	Global	Consultation assistance
Caribbean Development Bank (CDB)	Community Disaster Risk Reduction Fund (CDRRF) Finances community-driven projects which reduce the impacts of natural hazards and support climate change adaptation	Caribbean	Funds
Caribbean Development Bank (CDB)	Special Development Fund It is a pool of concessionary funds, which are used to address poverty and human development challenges	Caribbean	Low interest loans and grants
Caribbean	Sustainable Energy for the Eastern Caribbean (SEEC)	Eastern Caribbean	Funds and grants

Development Bank (CDB)	programme It provides financing to advance and implement renewable energy and energy efficiency solutions, particularly in the public sector.		
Central American Bank for Economic Integration (CABEI)	CABEI aims to promote the economic integration and the balanced economic and social development	Central America	Loans, credit lines, guarantees and equity
Climate Investment Funds (CIFs)	Generally local government stakeholders are not directly eligible for support by the CIFs and need to cooperate with national government ministries. Clean Technology Fund (CTF) Provides resources to scale up low carbon technologies with significant potential for long-term greenhouse gas emissions savings.	72 developing and middle income countries worldwide	Funding
Climate Investment Funds (CIFs)	Pilot Program for Climate Resilience (PPCR) It assists governments in integrating climate resilience into strategic development planning across sectors and stakeholder groups.	28 countries	Concessional and grant funding
Climate Investment Funds (CIFs)	Scaling Up Renewable Energy Program in Low Income Countries (SREP) It supports scaled-up deployment of renewable energy solutions like solar, geothermal, and biomass to increase energy access in LICs.	14 countries	Investments
Climate Policy Initiative (CPI)	Climate Finance Lab The Lab holds an annual call for ideas for financial instruments that can unlock investment to tackle some of the most difficult climate and sustainable development challenges in sectors like energy, transport, forest and agriculture	Global, with special focus to India, Brazil and Southern Africa	Technical assistance
Development Bank of Latin America (CAF)	CAF promotes sustainable development by supporting projects that must be prioritized by the local authorities.	Argentina, Barbados, Bolivia, Brazil, Chile, Colombia, Costa Rica, Dominican Republic, Ecuador, Jamaica, Mexico, Panama, Paraguay, Peru,	Credit, non-refundable resources, and support in the technical and financial structuring

		Portugal, Spain, Trinidad & Tobago, Uruguay, Venezuela	
Climate Technology Center and Network	<p>It promotes accelerated, diversified and scaled-up transfer of environmentally sound technologies for climate change mitigation and adaptation, in developing countries, in line with their sustainable development priorities</p> <p>CTCN National Designated Entities (NDE) can send a request through here.</p>	Global	Technical assistance
C40 Cities Climate Leadership Group	<p>Cities Finance Facility (CFF)</p> <p>It facilitates access to finance for climate change mitigation and resilience projects through the support in the development of finance-ready projects that address climate change</p>	Developing and emerging cities	Technical assistance
Development Bank of Southern Africa (DBSA)	<p>Municipalities in South Africa are a key market for the Bank.</p> <p>Project Preparation Fund</p> <p>It focuses on transport, energy, ICT, water and sanitation sectors. The Fund provides assistance by creating an enabling environment that facilitates the implementation of infrastructure projects.</p>	Southern Africa	Expertise and funding for early stage project preparation
Development Bank of Southern Africa (DBSA)	<p>SADC Project Preparation & Development Facility (PPDF)</p> <p>The purpose is to create a conducive environment for investment through financing the preparation of infrastructure projects</p>	SADC member states	Technical assistance Grants
Development Bank of Southern Africa (DBSA)	<p>SADC Water Fund</p> <p>The objective is to improve the supply for drinking water and water for agricultural use for the poor while at the same time having a positive impact on regional water sector development and integration</p>	SADC member states and their agencies; regional institutions	Grants from 2 to 4 million euros
European Bank for Reconstruction and Development (EBRD)	<p>Green Cities</p> <p>It focuses on connecting cities' environmental challenges with sustainable infrastructure investments and policy measures through the development and implementation of Green City Action Plans (GCAPs)</p>	EBRD cities	Technical assistance, capacity building, concessional loans and grants

European Investment Bank (EIB)	EIB support local governments by financing sustainable projects that have a positive impact on people and the planet	Global	Loans, guarantees and advisory services
European Investment Bank (EIB)	The City Climate Finance Gap Fund The Gap Fund paves the way for cities to deliver ambitious infrastructure development for low-carbon, resilient and livable cities. It unlocks a pipeline of financially viable urban investments that contribute to local transformation, global climate goals and green recovery.	Eligible countries	Advisory and technical assistance for early stage projects
European Investment Bank (EIB)	European Local Energy Assistance (ELENA) It supports energy efficiency and renewable energy investments targeting buildings and innovative urban transport.	EU member states	Grants for technical assistance (programs above EUR30 million)
European Investment Bank (EIB) Federal Ministry for the Environment, Nature Conservation and Nuclear Safety (BMU)	Financing Energy for Low-carbon Investment - Cities Advisory Facility (FELICITY) Supports the preparation of infrastructure projects resulting in GHG reduction in sectors such as buildings, public lighting, public transport and infrastructure, waste and water.	Brazil, Indonesia, Mexico or Indonesia	Technical assistance Capacity building
European Investment Bank (EIB)	Joint Assistance to Support Projects in European Regions (Jaspers) Jaspers supports promoters from strategic planning to project preparation and implementation	EU member states	Technical assistance Capacity building
European Investment Bank (EIB)	Urban Investment Support (UBRIS) UBRIS is set up to provide advisory support to urban authorities to facilitate, accelerate and unlock urban investment projects, programs and platforms.	EU member states	Technical assistance
European Investment Bank (EIB)	Municipal Project Support Facility (MPSF) It supports municipalities to prepare and implement bankable, sustainable and economically viable efficiency investment projects in district heating, urban transport, street lighting and renewable energy as well as projects related to the water supply and sanitation and solid waste management.	Eastern Europe Ukraine, Belarus, Georgia, Armenia, Azerbaijan and Moldova	Technical assistance
European Investment Bank (EIB)	Urban Project Finance Initiative (UPFI)	Southern and Eastern	Technical

Bank (EIB)	It helps project promoters in preparing and financing ambitious urban development projects, which aim to create jobs, to reduce poverty and to upgrade the urban fabric. The amount of support depends on project needs.	Mediterranean Western Balkans	assistance Funds
European Union (EU)	External Investment Plan (EIP) Is designed to attract more investment, in particular from businesses and private investors and provides financial assistance through the European Fund for Sustainable Development (EFSD) .	Neighboring EU and Africa	Guarantees Blending Technical assistance
European Union (EU)	Latin America Investment Facility (LAIF) The purpose of LAIF is to help countries finance projects in key sectors that are essential for the achievement of the Sustainable Development Goals, such as energy, environment, water, transport, social services, and support to small and medium-sized enterprises (SMEs)	Latin America	Investment grants Technical assistance
European Union (EU)	Euroclima+ It aims to reduce the impact of climate change and its effects in Latin America by promoting climate change mitigation and adaptation through resilience and investment	Latin American countries	Technical assistance Capacity building Pilots projects
European Union (EU)	Mobilise Your City (MYC) The partnership aims to empower 100 cities and 20 countries to improve urban mobility for their citizens and decarbonize transport to fight the global climate crisis.	Africa, Asia, Latin America and Eastern Europe	Technical assistance Support in access to finance
Federal Ministry for the Environment, Nature Conservation and Nuclear Safety (BMU)	International Climate Initiative (IKI) IKI assists its partner countries to implement the Nationally Determined Contributions (NDCs) that lie at the heart of the Paris Agreement and to take an ambitious approach to their future development. Supports programmes on policy advice, capacity building, technology cooperation and investment as well as the implementation of policies and strategies. IKI offers support through different mechanisms: <ul style="list-style-type: none"> • Small Grants 	Countries shortlisted by the Development Assistance Committee (DAC)	Funding

	<ul style="list-style-type: none"> • Medium Grants • Thematic selection procedure • Country-specific selection procedure 		
The Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ)	Covenant of Mayors in Sub-Saharan Africa (CoM SSA) Provides support to local administrations in identifying and prioritizing a pipeline of low-carbon or climate-resilient urban infrastructure projects. This entails support for studies (pre-feasibility, studies, environmental studies, technical study, etc.) and financial structuring of projects to reach bankability; expert guidance and capacity building on local and international financing requirements and standards including potential sources for finance.	CoM SSA signatory cities Burkina Faso, Cameroon, Cabo Verde, Kenya, Mozambique, Mauritania, Senegal, Togo, Uganda, and Mali	Technical Assistance
The Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ)	Transformative Urban Mobility Initiative (TUMI) TUMI moves substantial funds to finance urban mobility projects, scales pilot projects and provides policy advice to transform urban mobility globally. TUMI provides capacity development for a global mobility transition through tailored learning programs, a digital content delivery platform, publications, newsletters, social media campaigning, training of high-level city decision makers, and network promotion for the implementation of sustainable mobility solutions and transformation of the mobility landscape.	Developing countries	Technical assistance Grants from EUR 50-200,000 Loans up to EUR 500million
Global Climate Change Alliance Plus Initiative	Climate Support Facility (CSF) It provides demand-driven, short-term technical assistance, coordination and networking and knowledge sharing on climate change	African, Caribbean and Pacific countries and regional organizations	Technical assistance
Global Climate Partnership Fund (GCPF)	GCPF mainly supplies financing to local financial institutions, which provide sub-loans for energy projects that benefit small and medium-sized businesses and private households in particular. GCPF also finances energy efficiency and renewable energy projects directly.	27 countries	Funds small scale projects in late stage (typically up to 30 MW)
Global Ecosystem-based Adaptation Fund (Global EbA Fund)	By providing rapid and targeted financial support to innovative and catalytic projects, the Global EbA Fund addresses specific gaps in policy and technical knowledge to maximize the impact of this vital nature-based solution on a global scale.	DAC list of ODA Recipient	Grants range from USD 50,000 to USD 250,000,
Global Infrastructure		Africa	

Facility (GIF)	GIF supports governments and multilateral development banks on how to select, design, structure, and bring to market sustainable, quality bankable infrastructure projects. GIF accepts Expression of Interest through annual calls.	Asia Europe Latin America & Caribbean Middle East and North Africa	Funding and advisory technical support which varies from USD 50,000 to 5 million depending on the services
Global Environment Facility (GEF)	GEF funds are available to developing countries and countries with economies in transition to meet the objectives of the international environmental conventions and agreements.	Developing countries and countries with economies in transition	Funds
Global Environment Facility (GEF)	Least Developed Countries Fund (LDCF) The LDCF works with partner agencies to bolster technical and institutional capacity at the national and local level, to create a policy environment that encourages investment in adaptation solutions, to reduce systemic barriers to progress, and to promote innovation and private sector engagement.	Least Developed Countries	Funding
Global Environment Facility (GEF)	Small Grants Programme (SPG) It provides a window for the direct participation of NGOs, local communities, and other grassroots organizations.	Africa Asia & Pacific Latin America & Caribbean Middle East	Grants (USD 50,000 max)
Global Environment Facility (GEF)	Special Climate Change Fund (SCCF) It supports adaptation and technology transfer in activities water resources management, land management, agriculture, health, infrastructure development, fragile ecosystems, including mountainous ecosystems, and integrated coastal zone management.	All developing country parties to the UNFCCC	Funds
Global Environment Facility (GEF)	Sustainable cities impact program Cities are supported to pursue sustainable urban planning and implement spatially integrated solutions towards achieving efficiency in energy, buildings, transport, management of municipal waste, and utilization of green space and infrastructure, etc.	23 cities in 9 countries	Technical assistance
Green Climate Fund	PPF funding The GCF implements projects through partnerships	Developing countries	Technical assistance, grants, repayable grants or

	with Accredited Entities that develop funding proposals. Developing countries nominate National Designated Authorities (NDAs) or focal points to act as the point of communication with the GCF.		equity (up to USD300,00)
ICLEI - Local Governments for Sustainability	<p>Transformative Actions Program (TAP)</p> <p>TAP helps local and regional governments make their project idea robust, transformative and bankable. Services offered are:</p> <ul style="list-style-type: none"> • Exploration of financing mechanisms fitting to local demand • Capacity building and technical assistance on how to prepare a robust project concept, including planning and feasibility studies • Exploration of possible funding opportunities and financial strategies • Connection to other PPFs and strategic global and regional initiatives that offer additional technical assistance • Matchmaking with potential investors and funding institutions. 	Global	Technical assistance
Inter-American Development Bank (IDB)	For its sovereign borrowers, the IDB offers market based, cost-effective flexible financing products and guarantees to meet individual project needs and debt management objectives.	Latin, Central America and the Caribbean	Loans, grants and guarantees.
Inter-American Development Bank (IDB)	<p>Emerging And Sustainable Cities Program</p> <p>It provides direct support to national and subnational governments in the development and execution of city action plans.</p>	Latin America and the Caribbean	Technical assistance
Inter-American Development Bank (IDB)	<p>Climate investment platform</p> <p>The Platform works with governments at all levels, financial institutions, project developers and the private sector to increase financing for climate action. The main focus is energy transition.</p>	Developing countries	Technical assistance
MaRS Partner Solutions	<p>Municipal Impact Investment Fund</p> <p>an investment fund that catalyses scaled infrastructure investment, while being guided by the sustainable development policy objectives of the Canadian municipalities establishing the fund</p>	Canadian cities	Funds

New Development Bank (NDB)	NDB mobilizes resources for infrastructure and sustainable development projects. The Bank also provides technical assistance for projects. More information available here .	Brazil, Russia, India, China and South Africa (BRICS) and other developing countries	Technical assistance Loans Guarantees Equity participation
Private Infrastructure Development Group (PIDG)	InfraCo Africa : provide funding and expertise to infrastructure projects, enabling them to grow from an initial concept to a bankable investment opportunity to a viable operating business.	Africa	The support spans from USD 1 million to 10 million
South Pole	City Finance Lab (CFL) : is a dedicated platform supporting the development of innovative, replicable and scalable financing solutions which increase investment in climate-resilient, low-carbon and green urban projects for sustainable cities. The Lab aims at supporting financing innovations, scaling them up and mobilizing funds for the sustainable transition of cities.	Europe	The support goes from EUR 50,000 to 75,000.
Subnational Climate Finance	SCF initiative integrates an investment fund of mid-sized infrastructure projects (SCF Fund) and a grant-funded dedicated to technical assistance facility (SCF Technical Assistance)	Latin America and the Caribbean, Asia, Africa, and the Mediterranean	Investment Technical assistance
UN Capital Development Fund (UNCDF)	International Municipal Investment Fund – Technical Assistance Facility It aims to facilitate access to financing for local government (LG) capital investment projects on national and international financial markets. Selected pilot cities will receive technical assistance to help them define their investment program and support them in all necessary matters to access financing from the Fund.	Developing countries	Technical assistance for projects of less than EUR 25million
UN Capital Development Fund (UNCDF)	Municipal Investment Financing (MIF) program Aims to increase the access of LGs to sustainable sources of capital financing. Its strategy lies in leveraging the resources of governments to mobilize public and private capital investment (blended finance), while transitioning local government finances from traditional pure grant funding to a broadened mix of financial sources.	Bangladesh, Cameroon, Madagascar, Mali, Nepal, Niger, Senegal, Tanzania and Uganda	Funds
UN Capital Development Fund	Local Climate Adaptive Living Facility (LoCAL) It assists the integration of climate change adaption	Bangladesh, Benin, Butan, Cambodia,	Technical advice In country support

(UNCDF)	into local governments' planning and budgeting systems and expands the amount of finance available to local governments for climate change adaptation.	Ghana, Gambia, Lao PDR, Lesotho, Mali, Mozambique, Nepal, Niger, Tanzania, Tuvalu	Performance-based climate resilient grants
UN-Habitat	Climate Investment Facility (CIF) It is an online platform that connects UN-Habitat certified city development projects with investors seeking to finance projects that are economically, socially, and environmentally sustainable. It focuses in preparing upstream projects at the (pre) feasibility stage to unlock greater capital flows to finance sustainable urbanization.	Global	Matchmaking
United Nations Office for Disaster Risk Reduction (UNDRR)	Making Cities Resilient Campaign and MCR2030 : The MCR offers solutions and tools for local governments and actors to identify gaps in resilience and to increase financial, technical, and knowledge-based capacity for development planning and risk management.	Global	Matchmaking Technical assistance
United Nations Environment Programme (UNEP) and the UN Industrial Development Organization (UNIDO)	Climate Technology Centre and Network (CTCN) It supports early stage feasibility assessments for deployment of specific adaptation technologies, market studies, recommendations for regulatory reform, and other technical analysis that can help strengthen project design.	Country's National Designated Entities	Capacity building Technical assistance
United Nations Environment Programme (UNEP)	Global alliance for Buildings and Construction (GABC) works towards a zero-emission, efficient, and resilient buildings and construction sector through raising ambitions to meet the Paris climate goals and mobilizing all the actors along the value chain.	Global	Technical assistance Finance
United Nations Environment Programme (UNEP)	Programme for Energy Efficiency in Buildings (PEEB) A facility that mobilizes innovative financing solutions for large building projects, such as hospitals or schools, and also large national green building programmes. The programme supports its partner countries to make policies, standards and NDCs more ambitious and effective to channel investments towards green buildings.	Mexico, Morocco, Senegal, Tunisia, Vietnam	Capacity-building for professionals and decision-makers in the buildings Technical assistance

World Bank Group (WBG)	City Creditworthiness Initiative (CCI) Supports local authorities in improving their financial performance and prepare them to tap domestic or regional markets. The City Creditworthiness Initiative is comprised of two primary components: <ul style="list-style-type: none"> • CCI Academies which are hands-on learning programs that teach city leaders the fundamentals of creditworthiness and municipal finance. • And CCI Implementation Programs which are in-depth, multi-year, on-the-job, customized technical assistance programs to help them prepare for, structure, and close market-based financing transactions for climate-smart infrastructure projects, using local currency markets whenever possible. 	300 cities in 60 low- and middle-income countries	Technical assistance
World Bank Group (WBG) Cities Alliance	Eco2 Cities It provides cities with a bottom-up analytical and operational framework that can be adapted to each city's local conditions and needs. It also helps cities gain access to financial resources for strategic infrastructure investment.	Global	Technical assistance
World Bank Group (WBG)	Global Facility for Disaster Reduction and Recovery (GFDRR) Is supports disaster risk management projects worldwide. GFDRR helps countries to integrate disaster risk management and climate change adaptation into development strategies and investment programs and recover from disasters quickly and effectively.	Global	Grants
World Bank Group (WBG)	City Resilience Program (CRP) Aims to empower cities to pursue comprehensive investment programs to strengthen resilience, and to access a broad range of financing options.	Global	Grants Technical assistance Capacity building
World Bank Group (WBG)	Global Platform for Sustainable Cities (GPSC) It provides access to tools and promote an integrated approach to sustainable urban planning and financing. The platform shares publicly guidance documents, feasibility studies, workshops and working groups on specific issues, consisting of	30 cities	Knowledge sharing

	international experts and practitioners, indicators, tools/geospatial data, finance, planning, annual meetings and online resources (e-courses).		
World Bank Group (WBG)	Sustainable Cities Initiative (SCI) A multi-year program designed to support cities and governmental programs at the national level in pursuing an agenda that enhances the sustainability of cities.	Europe and Central Asia (ECA)	Knowledge sharing
World Bank Group (WBG)	The Public-Private Infrastructure Advisory It helps governments strengthen policies, regulations, and institutions that enable sustainable infrastructure with private-sector participation.	Developing countries	Knowledge sharing
World Bank Group (WBG)	Subnational Technical Assistance Program (SNTA) It helps to develop public financial management skills, strengthen credit ratings, build institutional capacity and systems, implement debt financing transactions, and more.	Selected countries	Technical assistance
World Bank Group (WBG)	World Bank Australia Safeguard Partnership Program (WBASP) It helps countries to meet their growing infrastructure needs in a way that is environmentally and socially sustainable. WBASP provides capacity building support to different types of stakeholders, such as government officials, academics, private sector, etc.	East Asia Pacific (EAP)	Capacity building
World Meteorological Organization (WMO)	Integrated Drought Management It mitigates drought risk and builds drought resilience by addressing multiple components of drought management, including disaster risk reduction, climate adaptation strategies and national water policies.	Global	Technical assistance
World Resources Institute (WRI) Ross Center	Financing Sustainable Cities Initiative (FSCI) It helps cities accelerate and scale-up investments in sustainable urban solutions through the development of innovative business models.	Global	Technical assistance Knowledge sharing

<p>World Resources Institute (WRI) Ross Center</p>	<p>TheCityFix Labs are cultivating innovative, private-sector solutions to urban development challenges. Support is in the form of workshops, capacity building activities, and matchmaking. It will depend on the size of the cohort but support can last from six months to a year.</p>	<p>India Mexico</p>	<p>Knowledge sharing</p>
<p>World Wide Fund for Nature (WWF)</p>	<p>One Planet City Challenge (OPCC)</p> <p>Aims to support and celebrate 100 cities with action plans for 1.5 °C by 2020 through a competitive selection process.</p> <p>Participating cities report emissions, goals and targets on global standardized city-data reporting platforms. Based on the data entered - their data is compared to the emission reduction trajectories recommended for their type, in order to limit global warming to 1.5 °C - cities are pre-screened and shortlisted (Up to three finalists per country are selected). Cities are then guided to the most impactful actions they can take to cut their emissions and align with 1.5°C. They should develop best practice and be strategic in their climate mitigation and adaptation plans.</p>	<p>Global</p>	<p>Advisory Technical assistance</p>
